Subject: Keep innovation alive

Microsoft is feared by Fortune 500 CEOs. Businesses, many of which have been hurt by Microsoft, refuse to bring up a case against the Redmond giant for fear of reprisal. Software companies stay out of Microsoft's path because they know that if they sell a competing product, they will compete against a "free" version that comes bundled on Windows.

The Dept. of Justice should have Microsoft sell a "stripped" down version of it's operating system.

Do You Yahoo!?
Great stuff seeking new owners in Yahoo! Auctions!
